Valin is your single source solution provider for your plant-wide control and testing needs

What we deliver...

Valin Corporation is your total solution provider of process valves, instrumentation, filtration, heating, controls and automation products. We support the aerospace industry by supplying high quality engineered components and services for plant-wide control and testing needs, plus all types of facility maintenance requirements. We provide products and services for all critical and non-critical heating applications, precise media measurement, temperature, measurement, flow and pressure control, filtration, factory control automation & networking, as well as a full line of high integrity fittings and valves for critical gas handling requirements.

Professional Application Engineers

- Troubleshooting
- Process specification
- Product selection
- Design solutions

Personalized Order Management

- Live assistance
- Customized inventory management
- Online order processing
- Automatic order status notification

Comprehensive Training Programs

- Certified trainers
- Hands-on product & software workshops
- Custom training classes
- On-site lunch & learns

Testimonial

"Valin helped us automate the processes for manufacturing instrumentation, optimized the visual inspection process and provided excellent technical support and service."
