Regulators

Compressed Air Dryers

Pre-Assembled Tube Bundles

Flanged Immersion Heaters

Lube Oil Immersion Heaters

Fuel Oil Heaters

Custom Power Control Panels

Heat Trace Cable & Controls

Gas Superheaters

General Purpose Comfort Heaters

Air Duct Heaters

Hazardous-Duty Convection and Blower-Type Heaters

Valin is your single source solution provider for all of your Power Generation needs

# What we deliver...

Valin Corporation is your total solution provider of process valves, instrumentation, filtration, heating, controls and automation products. We understand your industry and need for reliable operations and performance. We help you minimize downtime and increase plant efficiency for megawatt output. Our technical knowledge and market expertise, matched with our value-added service capabilities, helps makes us the comprehensive solution provider for the Power Generation industry.

## Professional Application Engineers

- Troubleshooting
- Process specification
- Product selection
- Design solutions

## Personalized Order Management

- Live assistance
- Customized inventory management
- Online order processing
- Automatic order status notification

## Comprehensive Training Programs

- Certified trainers
- Hands-on product & software workshops
- Custom training classes
- On-site lunch & learns

### Testimonial

*"When we needed to upgrade our Omron controller, Valin saved the day. We had the hardware ready to go, but had not upgraded our software yet, which put us in a bind. One of the Valin senior application engineers came to our site right away and got us up and running with a 30-day version of the software. He helped us all day and even stayed after hours to make sure my laptop was working properly. Valin has an excellent team, and I highly recommend them to other companies."*

*Steven Luong  
Senior Software Engineer  
Solar Panel Manufacturer*
