

NUCLEAR SOLUTIONS

NUCLEAR

Valin Corporation is your total solution provider of process valves, instrumentation, filtration, heating, controls, and automation products. We understand the nuclear industry’s critical demands for safety, regulatory compliance, precision, and long-term reliability in highly controlled environments. Our team is experienced in supporting stringent quality standards, documentation requirements, and lifecycle performance expectations. With deep technical expertise and value-added service capabilities, Valin delivers dependable solutions that help ensure operational integrity, minimize downtime, and support safe, efficient plant performance.

ISO 9001 CERTIFIED

PROFESSIONAL APPLICATION ENGINEERS

- Trouble Shooting
- Process Specification
- Product Selection
- Design Solutions

PERSONALIZED ORDER MANAGEMENT

- Live Assistance
- Customized Inventory Management
- Online Order Processing
- Automatic Order Status Notification

COMPREHENSIVE TRAINING PROGRAMS

- Certified Trainers
- Hands-on Product & Software Workshops
- Custom Training Classes
- On-site Lunch & Learns

BRANDS YOU TRUST

PRODUCT PORTFOLIO

Control Valves

Emergency Shutdown Valves

Butterfly Valves

Cryogenic Valves

Double Block & Bleed Valves

Multiport Valves

High Temperature Valves

Explosion-Proof Solenoid Valves

Instrumentation Fittings

Instrumentation Valves

Tubing

Pressure Regulators

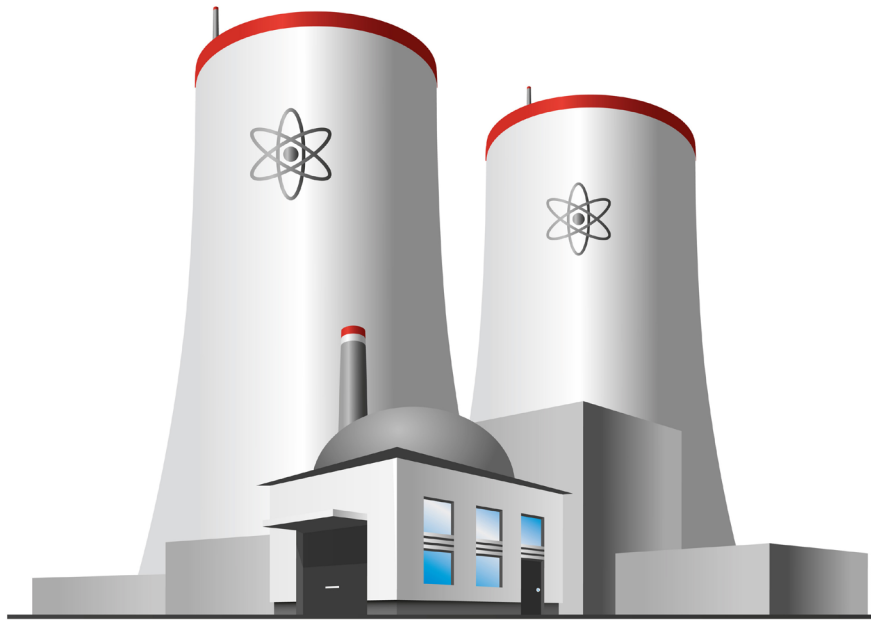

Pressure Measurement

Temperature Measurement

Thermocouples & Thermowells

Flow Measurement

Mist & Smoke Collection

O-Rings & Seals

Control Panels

Immersion Heaters

Electric Thermal System

Heat Trace

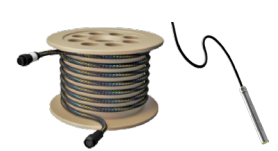

Leak Detection Controllers

Leak Detection Monitoring

Hydrocarbon Leak Systems

ASME Filter Vessels

Filtration Skids

Diesel Filtration Skids

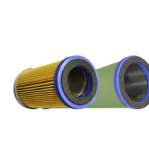

Gas Particulate Filters

Filters

Coalescer Separators

Filtration Carts

Oil Conditioning Dryer

NUCLEAR REGULATORY & CERTIFICATION DISCLAIMER

Products, brands, and manufacturers referenced in this brochure are provided for general informational and sourcing purposes only. Not all listed products, brands, or manufacturers are certified, qualified, or approved for nuclear safety related applications or for use in regulated nuclear facilities.

Certification requirements may vary by application, facility, system classification, regulatory jurisdiction, and governing standards. Examples of applicable requirements may include, but are not limited to ASME NQA 1, 10 CFR 50 Appendix B, 10 CFR Part 21, CSA N286, ISO 9001, IEC, IEEE, or utility-specific procurement and qualification programs.

It is the customer's responsibility to determine suitability, certification compliance, environmental qualification, seismic qualification, and compatibility with intended nuclear applications. Customers are strongly advised to consult with a qualified nuclear compliance or engineering specialist prior to specifying, purchasing, or installing any product for nuclear service.
