Integrated Process Control and Automation Solutions

What we deliver...

Valin Corporation is your total solution provider of process valves, instrumentation, filtration, heating, controls and automation products. We understand your industry and needs for innovation and technology leadership, on schedule research & development, meeting regulatory approvals & validations, and supporting health & safety concerns. Our technical knowledge and market expertise, matched with our value-added service capabilities, makes us the comprehensive solution provider for the Medical Devices Industry.

ISO 9001 Certified

Professional Application Engineers

- Troubleshooting
- Process specification
- Product selection
- Design solutions

Personalized Order Management

- Live assistance
- Customized inventory management
- Online order processing
- Automatic order status notification

Comprehensive Training Programs

- Certified trainers
- Hands-on product & software workshops
- Custom training classes
- On-site lunch & learns

Testimonial

"We design and build specialized equipment for the medical industry. The performance of our equipment is critical to the customer's end product. Valin has been a great resource in the development of our control system. Their skills with the Omron control platform have been a real asset in cutting our time to market."
