FOR IMMEDIATE RELEASE

Valin Partners with Eaton to Offer Strainer Solutions to Customers

Technical solutions giant adds to robust product offering

San Jose, Calif. (Jan. 5, 2021)— Valin Corporation, a privately held, employee-owned company providing technical solutions for the technology, energy, life sciences, natural resources, and transportation industries has partnered with Eaton to stock and offer its cast and fabricated strainer product line to Valin’s customer base. The announcement further reinforces Valin’s reputation of offering top tier solutions in the industry.

“We’re excited to now offer Eaton’s reputable strainer solutions to our dedicated customer base,” said Kari Kohonen, Director of Sales at Valin Corporation. “Our customers expect that we can live up to our reputation of being a one-stop-shop in terms of process and control solutions. Being able to offer Eaton’s strainer solutions furthers our ability to live up to this reputation.

Eaton’s strainer solutions are designed to protect pumps, filters, nozzles, flow meters, valves, heat exchangers, condensers, oil burners, boilers and other downstream process system components from debris.

Valin’s foothold in the Western United States, Pacific Northwest and Alaska makes the partnership attractive to Eaton. Coupling the geographic advantage with its vast knowledge and expertise around strainers and process control, Valin is uniquely positioned to provide off-the-shelf and custom solutions.

“We are pleased to have a partner in Valin Corporation focusing on the Oil, Gas, and Power Generation markets in the Western USA Region,” said Paul Hill, Regional Sales Manager at Eaton. “The Eaton cast and fabricated strainer portfolio, as well as the Wright Austin Liquid Separator technology, provide an extended portfolio of filtration solutions to Valin’s customers. We look forward to working together to support this important market segment in the region.”
