Faster – better – everywhere.

ENCLOSURES

POWER DISTRIBUTION

CLIMATE CONTROL

Rittal – The System.

The whole is more than the sum of its parts.

The same is true of “Rittal – The System.” With this in mind, we have bundled our innovative enclosure, power distribution, climate control and IT infrastructure products together into a single system platform. Complemented by our extensive range of software tools and global service, we create unique added value for all industrial applications: Production plant, test equipment, facility management and data centres. In accordance with our simple principle, “Faster – better – everywhere”, we are able to combine innovative products and efficient service to optimum effect.

Faster – with our “Rittal – The System.” range of modular solutions, which guarantees fast planning, assembly, conversion and commissioning with its system compatibility.

Better – by being quick to translate market trends into products.

In this way, our innovative strength helps you to secure competitive advantages.

Everywhere – thanks to global networking across 150 locations. Rittal has over 60 subsidiaries, more than 150 service partners and over 1,000 service engineers worldwide. For more than 50 years, we have been on hand to offer advice, assistance and product solutions.

IT INFRASTRUCTURE

SOFTWARE & SERVICES

Support arm system CP 60/120/180

Uniform engineering

- All load levels from from 600 to 1,800 N
- One system
- Simple system replacement in the vertical axis to cut costs and weight
- Consistent combination options

Multi-functional assembly

- Uniform adjustment principle, also possible retrospectively without dismantling
- Perfect limitation of rotation ranges
- Simple, one-person assembly
- Sections are easily cut to the required length

Efficient cable management

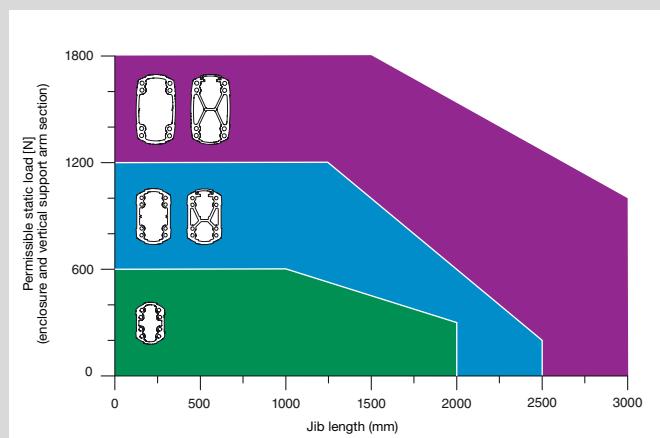

- Cross-section sufficient for large connectors
- Simple separation between data and power cables is supported
- Flexible cable entry and routing options
- Automatic, consistent potential equalisation of all support arm components
- Open support section for easy upgrade and servicing access

Support arm system CP 60/120/180

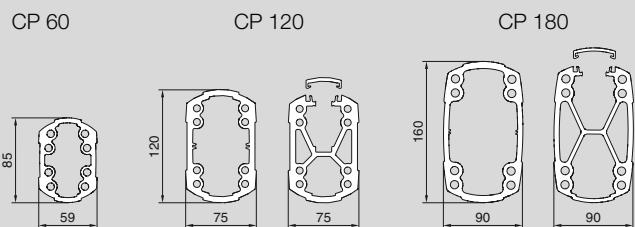

Operating housings with handle strips From page 21 Comfort Panel Page 23 Optipanel Page 23

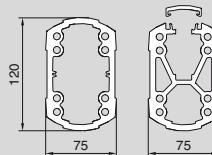

System replacement

In the vertical axis, a system replacement to the next smallest system is possible without impairing the load capacity.

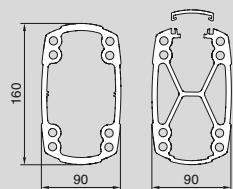

CP 60

CP 120

CP 180

Support arm configurator for CP 40/60/120/180

The tool is able to precisely define the correct support arm system using important user-specific parameters such as the jib length, enclosure weight or required cable cross-section.

Benefits:

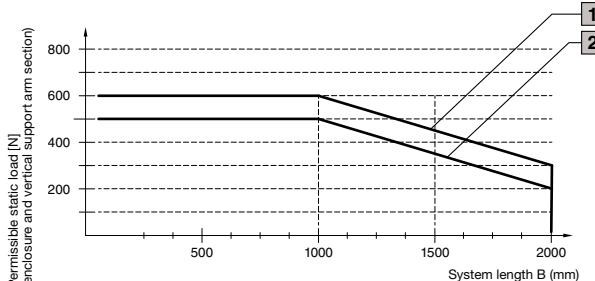

- Individual assembly tailored to the requirements of the application
- Built-in consistency check
- The outcome is a plausibility-checked parts list

www.rittal.com

Support arm system CP 60/120/180, load capacity

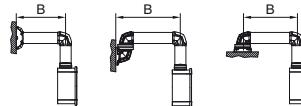

Support arm system CP 60

Permissible load depending on system configuration

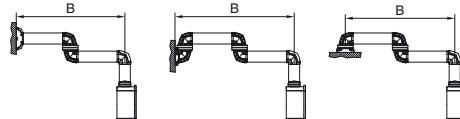

Wall/base mounting bracket, small CP 6206.820 must not be used in conjunction with intermediate hinge CP 6206.620!
Intermediate hinge CP 6206.620 should only be used once per system!

1 System configuration without intermediate hinge, CP 6206.620

B max. = 2000 mm

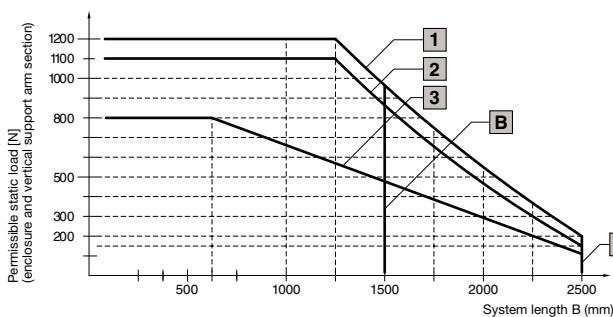

2 System configuration with intermediate hinge CP 6206.620

B max. = 2000 mm

Support arm system CP 120

Permissible load depending on system configuration

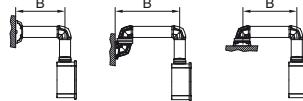

1 With solid or open support section

2 With solid support section

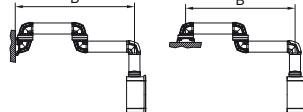

3 With open support section

A Maximum system length 2500 mm for systems with horizontal outlet at the system start.

1 System configuration without intermediate hinge CP 6212.620

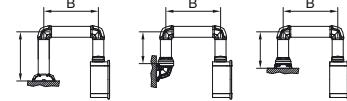

2 **3** System configuration with intermediate hinge CP 6212.620

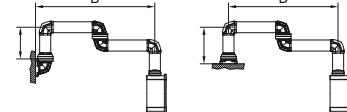

B max. = 2500 mm

B Maximum system length 1500 mm for systems with vertical outlet at the system start.

1 System configuration without intermediate hinge CP 6212.620

2 **3** System configuration with intermediate hinge CP 6212.620

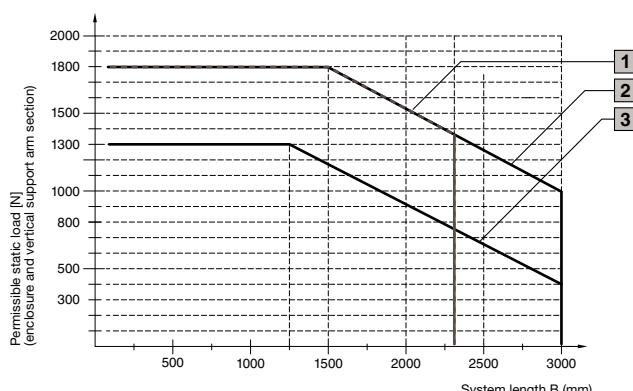

A max. = 500 mm B max. = 1500 mm

Intermediate hinge CP 6212.620 should only be used once per system!

Support arm system CP 180

Permissible load depending on system configuration

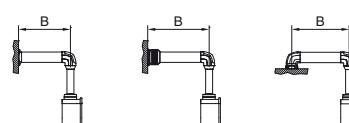

1 With solid or open support section

2 With solid support section

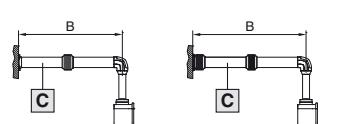

3 With open support section

1 System configuration without intermediate hinge, CP 6218.620

B max. = 2300 mm

2 **3** System configuration with intermediate hinge CP 6218.620

B max. = 3000 mm

Intermediate hinge CP 6218.620 should only be used once per system!

C Rittal recommends using a solid support section

Support arm system CP 60

Component overview

- Tilting adaptor 10° for support arm connection Ø 130 mm (6206.400)
Tilting adaptor 10° for support arm connection □ 120 x 65 mm (6206.440)
Tilting adaptor +/-45° for support arm connection Ø 130 mm (6206.420)
Tilting adaptor +100/-60° for support arm connection □ 120 x 65 mm (6206.460)
Connection console VESA 75/100 for support arm connection □ 120 x 65 mm (6206.480)
Attachment CP 60 for support arm connection Ø 130 mm (6206.320)
Attachment CP 60 for support arm connection □ 120 x 65 mm (6206.360)
Coupling CP 60 for support arm connection Ø 130 mm (6206.300)
Coupling CP 60 for support arm connection □ 120 x 65 mm (6206.340)
Angle coupling 90° CP 60 for support arm connection Ø 130 mm (6206.380)
Support section CP 60, solid (6206.025, 6206.050, 6206.100, 6206.200)
Angle adaptor 90° for support arm combination CP 60/40 (6206.640)
Support section CP 40, steel (6501.000)
Coupling CP 40, steel, for support arm connection □ 90 x 71 mm (6501.050)

Support section CP 120

Attachment to the connection components with 4 self-tapping screws in the screw channel. May be cut to any required length, no thread-tapping required. Closed cable duct with a large cross-section. Open cable duct for easy servicing access and for pre-assembled cables with connectors; lockable via cover section.

X-shaped profiling for greater load capacity, large cable routing channels. Upper channel adequate for cables with large connectors (e.g. DVI or VGA) and available/usable throughout the entire system.

¹⁾ Weight information and diagrams for CP 120, see page 15

Operating housing with handle strips

Uniform design and function

Modern design, adapted to support arm system CP 60/120/180

Convenience in perfection

- Integral interior installation bracket with TS system punchings, to match TS system accessories
- Fast, safe, simple servicing access from the front or rear
- Lock with integral door runners for easy locking

Built-in added value

- Support arm connection for one-person assembly
- Support arm connection Ø 130 mm, preformed off-centre in the reinforcement plate, easily drilled out

Ergonomic design

- Design strip including handle function
- Aluminium front panel, easily dismantled for machining

Operating housing with handle strips

Support arm systems From page 5

Material:

- Enclosure and door: Sheet steel
- Handle strips: Aluminium
- Front panel: Aluminium
- Cover caps: Plastic

Surface finish:

- Enclosure and door: Dipcoat primed, powder-coated on the outside, textured paint
- Handle strip: Natural anodised
- Front panel: Natural anodised

Colour:

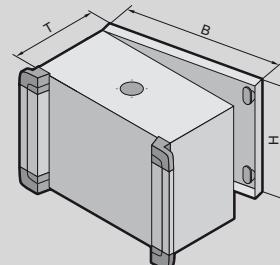

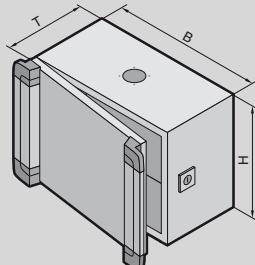

- Enclosure and door: RAL 7035
- Handle strip: Natural anodised
- Front panel: Natural anodised
- Cover caps: similar to RAL 7024

Protection category IP to IEC 60 529:

- IP 55

Supply includes:

- Enclosure with cut-out and reinforcement for support arm connection Ø 130 mm
- Front with maximum cut-out, covered with easily machinable 3 mm aluminium front panel
- Side handle strips and cover caps
- Cam lock with 3 mm double-bit insert
- Integral interior installation bracket with TS system punchings

Note:

- The support arm connection and door hinge may be swapped over by rotating the enclosure
- Optional: Support arm connection Ø 130 mm, preformed off-centre in the reinforcement plate, easily drilled out
- Lock systems for servicing access from the front: 41 mm lock inserts, lock cylinder, plastic handles and T-handles, type C
- Lock systems for servicing access from the rear: 41 mm lock inserts, type A, lock cylinder, plastic handles and T-handles, type B

Approvals:

- CSA

Other command panels

Operating housing for desktop TFT up to 24"

Convenience in perfection

- Viewing window with single-pane safety glass
- TFT holder with VESA 75/100 locator, depth-adjustable
- Support arm connection Ø 130 mm, top or bottom by rotating the enclosure
- Servicing access from the rear
- Protection category IP 65

Optipanel

Super-slimline design

- Aluminium enclosure, high thermal conductivity for optimum passive heat dissipation
- 7 standard sizes available off the shelf
- Servicing access from the rear
- 3 fixed installation depths
- Protection category IP 65

Comfort Panel

Multi-talented all-rounder in design and function

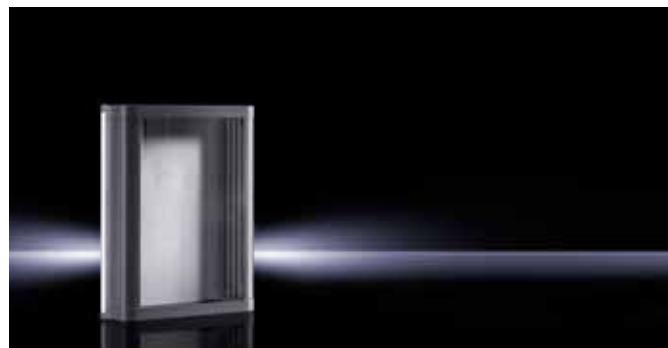

- Aluminium enclosure, high thermal conductivity for optimum passive heat dissipation
- 9 standard sizes available off the shelf
- Servicing access from the front or rear
- All-round, uniform assembly concept
- Protection category IP 65

Compact Panel

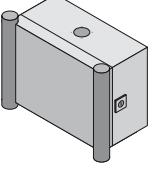

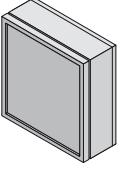

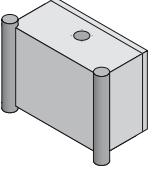

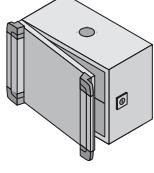

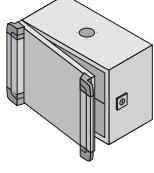

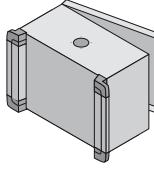

For small operating units

- 4 standard sizes available off the shelf
- Rear panel optionally hinged on the left or right
- For mounting either on support arm or via wall attachment vertically hinged directly on the machine
- Protection category IP 65

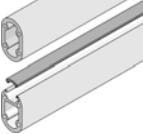

Further information on command panels may be found on the Internet at:
www.ittal.com
