

TopWorx™ DVR Series Switchbox

Compact switchbox keeps your processes running smoothly.

A Reliable Solution For Challenging Environments

- **Reliable.** This unit's low-profile indication provides easy-to-read, local position feedback.
- **Ideal for tight spaces.** This switchbox features a compact, versatile design, making it suitable for confined spaces and a wide range of applications.
- **Easy to maintain.** Its patented cam design simplifies the commissioning process, saving time and reducing errors.

TOPWORX™

EMERSON™

A high-quality switchbox solution with flush-mount capabilities.

The DVR is a reliable, durable switchbox solution for use in confined spaces and across a wide range of industries, including water and wastewater, industrial utilities and food and beverage. Designed to be flexible and adaptable, this unit performs well in challenging conditions. Its patented cam design also makes the commissioning process quick and easy, while its direct-flush mount capabilities ensure secure linkage and operation.

DVR Series Features and Benefits

Thanks to its durable enclosure design, compact size and patented cam design, the DVR unlocks many benefits, increasing productivity without expanding your existing workspace:

- Compact and versatile design for confined spaces across many applications.
- Robust enclosure and stainless steel components offer durability and corrosion resistance.
- Low-profile indication provides easy-to-read local position feedback.
- Patented cam design simplifies the commissioning process, saving time and reducing errors.
- UV resistance ensures the DVR maintains its performance in outdoor environments.

DVR Operating Specifications

Enclosure	UV F1 Rated, IP66/67, UL Type 4/4X
Shaft Rotation	90° (consult factory for additional shaft rotation sensing)
Terminal Connection	24-12 AWG
