

Heat Trace Seminar

This one and a half hour workshop provides technical instruction on the three basic types of heat trace; self regulating, constant wattage, and mineral insulated cable. It provides information about applications and information for each cable type. How to properly design, and control systems for the heat trace systems.

Who should attend?

- Technicians
- Engineers
- Maintenance Personnel
- Control Engineers

Agenda

- Why use heat tracing
- Cable types and uses
- Information gathering to set up a system
- Controls for systems
- Installation
- Design and engineering services
